INSTRUCTIONS FOR INSTALLATION

INSTALLATION

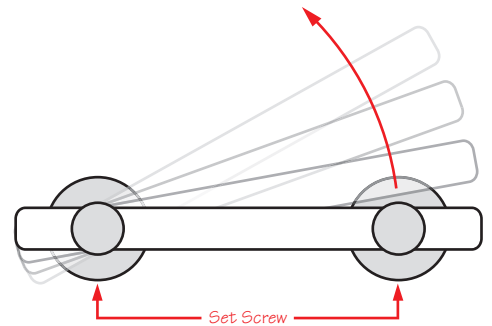

In order to install the paper holder correctly, be sure to install the mounting brackets exactly 6 1/4" apart on center. This will ensure that our paper holder can be installed quickly and easily, with no disassembly. The legs of holder slip onto the mounting brackets and connect via set screws located at the bottom.

USE

To change the paper, simply pull the spring loaded pewter leaf/knot toward you and rotate the bamboo in a counter-clockwise direction. Replace the paper roll and pull the pewter leaf/knot toward you and move the bamboo back into place.

CARE

Clean only with a soft, dry cloth. To protect the finish, we do not recommend the use of polishes or abrasives. If you have any questions regarding your Vicenza Designs product, please contact your local dealer.
